### **GIVER OF KNOWLEDGE BE THE SPARK**

Dear Christites,

Have you heard of the term **Synergy**? What is **Synergy**? Though the term seems to be very complicated it is indeed a spirit-elevating term with lots of positivity. I'll put it to you in very simple terms. I hope you all have watched Spiderman – NWH! Remember the scene in which Tobey Maguire, Andrew Garfield and Tom Holland appear together on the same screen. That is one ultimate explosion of synergy! The unique combination! **Synergy takes place when different entities come together to make a greater impact than they would separately. Synergy results in high productivity.** Dear Christites, each one of us is capable of creating this synergy with the superpower of knowledge that we have acquired.

**'Knowledge is power'** – I am sure all of you have heard this proverb. This saying is cent percent true only if you understand it in the right sense. **'Knowledge is power and knowledge shared is power multiplied'** – Now, that's what you all need to know importantly. If gaining knowledge is just the first step, giving it should be the next. The explosion of synergy happens when you share the right knowledge with the right person. Hoarding isn't any good! That is why we all should know how to be a giver of knowledge.

"Knowledge is like a garden, if it is not cultivated it cannot be harvested." The knowledge shared has the potential to be more effective than keeping it within boundaries. Remember a task that you and your best buddies accomplished together. I'm sure initially it wasn't easy at all but slowly when you started sharing the knowledge that each one of you had about the topic, the knots were removed and you were closer to success. On the contrary, what would have happened if you didn't share the knowledge you possessed? Failure!

Keep this in mind my dear Christites, the pearls of wisdom and knowledge that you receive from this abode of learning which is perfectly seasoned by your own experience is not a thing to be selfishly held back and used only by you. You must be a giver, a giver of knowledge. You should be that element which kick starts the synergic explosion. Wonders happen when you share your knowledge.

Be that spark that ignites synergy.

Excelsior Christites!

## Vice Principal's Message

**GAINING KNOWLEDGE** is the first steps to wisdom  
**SHARING IT** is the first step to humanity.

Our knowledge has undoubtedly helped us reach the place where we are at the moment. Seeking knowledge must be the most necessary task in our daily lives. If there is a need to seek knowledge, then there must be a giver of knowledge. The very first knowledge givers with whom we interact in our lives are usually our parents, family members, relatives and our dear and near ones. The blank slate that we consider every child to be, is carefully carved and painted by each parent, with full support from all four grandparents as well, as they ensure to be having a caring approach while handling the delicate mind. The morals, values and ethics taught by these six wonderful people is constant and their share of wisdom is highly relevant for lifetime.

Knowledge opens the door leading to wisdom. Imparting knowledge is not just an art, it is also science. Our primary source of knowledge is from schools, where our teachers make us capable enough to let ourselves get afloat in the ocean of golden opportunities. Their way of imparting knowledge follows a complex, yet systematic combination of teaching and preaching, i.e., not only do they shape our heads but also our hearts.

Being a teacher it is our responsibility and expertise to impart knowledge to our students. Since our students look up to us because of what we know, our attitude as a teacher or as a person is something that the students seen on us. So, the best way to impart the right attitude to your students we have to walk our talk to our students.

As the proverb says, "Give a man a fish, and he will eat for a day; teach a man to fish, and he will eat for a lifetime." It is better to teach students how to learn facts on their own, rather than teach them facts. In this global pandemic, the art of imparting knowledge has undergone a drastic evolution. Smarter ways to impart knowledge are introduced and traditional methods of teaching are being replaced in the online mode of education. It is said that you must preach what you follow, and you practice what you preach. This one line makes imparting knowledge to be a work of immense responsibility for every teacher as they are supposed to be the example that they wish to teach to their students.

If you have knowledge, let others light their candle at it.

Fr. Martin Onasseril CMI

## BE A GIVER OF KNOWLEDGE

My Dear Christites,

We have a beautiful theme for our Reflection this time, "Be a Giver of Knowledge". This theme is especially relevant in our educational and academic milieu as we are all engaged in the process of learning and acquiring knowledge. Even though this theme may give an impression that it refers more to teachers as they are duty-bound in teaching and giving knowledge, everyone has the two-fold responsibilities of learning and teaching, giving knowledge and receiving knowledge. Being in the conscious and deliberate processes of teaching and learning is a noble vocation that forms the backbone of the civilized world. It is the moral imperative of all us to pass on to the next generation the valuable treasures of knowledge and wisdom at our disposal.

The unique nature of knowledge and light is that they increase and multiply by sharing. From the flame of a single candle, countless candles can be lit, without the giver of the first light not losing its light. It is the same with knowledge and wisdom. When we give knowledge, we do not lose the repository of knowledge, but in fact we ourselves grow in wisdom. Another distinctive characteristic of knowledge is that nobody is exclusively at the giving end or the receiving end of knowledge. We are all equally teachers and equally students all through our life.

The unprecedented affluence of knowledge which is, through various modern means, available to us must prepare us to seek this knowledge and pass this over to others. Let us pledge ourselves to the pursuit of knowledge and wisdom, committing to the cause of giving knowledge and light to others.

Thanking you,

Fr. Reji Koodappattu CMI

## Financial Administrator's Message

# Be a giver of Knowledge

“If you have knowledge, let others light their candles at it.”

-Margret Fuller

When you say the word ‘knowledge’, what do you understand by it? How can knowledge be the most powerful asset that human beings possess? A person who is aware of different facts and possesses awareness can easily manage different situations. It can be acquired at any age, and one has to have a thirst for it. As you get older, you gain knowledge. When you share your knowledge with others, it helps deepen your knowledge and engrains what you know. New conversations and opportunities can arise just from that gestures, offering even more opportunities to grow.

Your knowledge increases three times when you give knowledge to others. If we share our knowledge then it doesn’t make us less valuable, in fact, it gives us power to share more. Sharing knowledge is inversely proportional to ego. Sharing your knowledge is the best way to learn and retain knowledge for yourself. It might be power, but it’s much more powerful when it’s shared!

Dear christites, let’s spread the knowledge we possess like a candle that lights up the other candles by losing nothing instead lighting another candle together it lights up the world brightly at the time of darkness. The power of knowledge is in giving, by doing so you will not only help the person who is in need of it but also it will definitely help you to enhance your knowledge.

## FEBRUARY AT A GLANCE

- \* CLASS 10TH SEMESTER I RESULTS
- \* VISIT OF GENERAL COUNCILLOR FOR EDUCATION AND MEDIA COMMUNICATION
- \* FOUNDERS DAY
- \* SCIENCE EXHIBITION- CREADORA
- \* PRINCIPALS DAY

## UPCOMING EVENTS

- 7<sup>th</sup> - Annual Day ( Classes 5 to 10)
- 8<sup>th</sup> - Annual Day( Classes 1 to 4)
- 8<sup>th</sup> - Women’s Day
- 9<sup>th</sup> to 19<sup>th</sup> - I preparatory for Class 10 ( term 2)
- 14<sup>th</sup> to 24<sup>th</sup> - Annual Examination ( Classes 8 to 9)
- 21<sup>st</sup> to 31<sup>st</sup> - Annual Examination ( Classes 1 to 7)
- 28<sup>th</sup> - II preparatory for Class 10 ( term 2) Begins

## INTERNS TO CHRIST SCHOOL ICSE

The distinction between assistant and Intern is a simple one: assistants are paid, interns are not. But of course interns are paid, in experience.

This year we had interns 6 Interns from B.Ed, School Of Education, Christ University and 4 Interns from M.A. English Literature, Kristu Jayanti College (Autonomous). They were with us for a month involving in Teaching-Learning process, substitution and various activities of the institution. Each intern was working under a supervisor according to their subjects.

Our school is indeed privileged and honored to be selected by such prestigious institutions as mentioned above to have their student’s internship program. On behalf of the Principal, management and staffs of CHRIST SCHOOL ICSE, we sincerely thank the management and faculties of these institutions and we hope that the interns had a fruitful learning experience throughout the internship period.

Mr. Paul Dhinakaran M  
In-charge for the Internship Programme

# PRINCIPALS DAY- El Diamante

“Leadership is an action and not a position” Donald McGannon.

These words are very appropriate in case of our very strong, capable and beloved principal, Rev. Fr. Nilson Davis Pallissery CMI. To show our respect, love and to thank this great leader, Christ School ICSE, celebrated the Principal’s Day- El Diamante “the precious one” on 19th February, 2022. The event was blessed with the presence of our dear principal, our vice principal, Rev. Fr. Martin and our financial administrator, Rev. Fr. Reji. Colourful dances, floral presentations, cards, special gifts, and felicitation speeches, made the event a remarkable one. A beautiful video was presented to our dearest principal by the staff. The show was marked a grand success. The programme was also released in our official Youtube channel.

Ms. Sneha Jose  
Programme Committee

## FOUNDERS DAY - TEJOMAY

Christ School ICSE celebrated The Founder's Day, TEJOMAY on 10th February 2022 at 2:00 pm and was also live streamed the programme in our official school YouTube channel. This year we celebrated 217th birth anniversary and 150th death anniversary of St Kuriakose

Elias Chavara, the founder of CMI congregation and also celebrated 175th year of first CMI school, sanskritkalarī established in Mannannam. Our dignitaries for the day was Rev. Fr. Dr. Antony Puthenangady, CMI, Chief Guest for the day, Former provincial of Preshtha province Coimbatore and superior of Vidyavanam Ashram, Bannerghatta, the guest of honor, Sr. Josmi, CMC, superior of Jnanodaya Bangalore, Rev. Fr. Sebastian Elanjikkal, CMI, coordinator of Christ group of schools, Rev. Fr. Fenil Karikkakunel, CMI, Director of Christ Special School, Rev. Fr. Martin Onnaseril, CMI, Vice principal, Rev. Fr. Reji Koddapattu, CMI, Financial Administrator, and our principal Rev. Fr. Nilson Davis CMI, whose esteem presence made this event a blessing and valuable with their thoughts and views. The programme began with an invocation dance and followed by lightening of the lamp by our dignitaries. The gathering was enlightened by the insight of patron St. Chavara. The students and teachers showcased a dance performance.

Tejomay is a word taken from sanskrit. It is an art representation took shape in thoughts of our principal, who guided the teachers to make the project a reality. It is a wonderful art work which explains the glory of the St. Chavara. Tejomay is released as a book and a video, CD and also in our school YouTube channel. The sketches used for the video was exhibited in our school. The dignitaries released the CD, magazine and the video during the event. Prize was distributed to the winners of various online competitions conducted as part of Tejomay. The programme was successful with the blessings of Lord and with the cooperation of each and every member of Christ school ICSE. Commemorating the death anniversary of St. Kuriakose Elias Chavara, and honouring the teachings and contribution of our founder Father, the online competitions were conducted for the students of classes 1 to 10 on 7 January, 2022, as a part of our celebration. 760 Students participated in the competition with enthusiasm. The winners of the online competitions were awarded with the certificate by our Principal Father Nilson Davis CMI.

Ms. Treesa Thomas  
Programme Committee

The Founder's Day was the most fitting day for us to felicitate the toppers of the ICSE Board Examinations 2020-21. There were 14 students who had performed excellently in the examinations. They were honored by Rev. Fr Nilson, our beloved principal.

## Visit of General Councillor for Education and Media Communication

Rev. Fr Martin Mallathu CMI, General Councillor for Education and Media Communication visited us on 9th of February, 2022 and boosted the morale of all the members of the faculty. He exhorted us to have greater interaction with the students. He inspired and reminded the teachers to bridge the generational gap that the students may fully realise their potential. He pointed out the need to be "with the" students in today's world of metaverse. Rev. father concluded his message inviting all the members of the faculty to continue to keep our flag high.

## CLASS 10<sup>TH</sup> SEMESTER I RESULTS

“Success is the sum of small efforts – repeated day in and day out.”  
 The Indian Certificate of Secondary Education (ICSE) Board has released the much-anticipated Class 10 Semester-1 result on 7th February 2022, Monday. This year CISCE hold two examinations for Class 10 students. The ICSE Semester 1 exams were held between 29th November, 2021 to 20th December, 2021. The exams were conducted in offline mode. . .  
 All the 153 students who have registered for 2022 ICSE Examination has successfully cleared their Semester-1 examination.  
 Out of 153 students 81 students scored centum in various subjects.  
 Warmest congratulations to all dear students!!!  
 Succeeding in life is easy as long as you believe in yourself.  
 Trust yourself, and success will come along.  
 Wishing you the very best for the upcoming Semester-2 examinations.....

Anitha Joseph

In-charge of Examination Committee

# Creadora 2.0 Science exhibition

Science is the key to our future,  
And if you don't believe in science,  
Then you are holding everybody back. - Bill  
Nye

Creadora 2.0 - Science exhibition was conducted online. This year we had around 246 exhibits. They were from Physics, Chemistry, Biology and Science in general for lower classes. Students could either participate individually or in a group of two members. Students were instructed to make the model and take a video of it explaining about their exhibit. Through this students were able to come out of their shell and showcase their ideology and creativity in the subjects they chose. The video were sent to the judges and results were tabulated.

Mr Paul Dhinakaran M

# TEACHERS CORNER

The beautiful thing about learning is nobody can take it away from you—B. B. King. Knowledge is understanding and awareness of something. It refers to the information, facts, skills, and wisdom acquired through learning and experiences in life. Sharing wisdom from generation to generation is one thing that has made humans make huge strides in living in peace. Knowledge can solve problems in life. Knowledge sharpens our skills like reasoning and problem-solving. The more knowledge we have the more power we possess. It is important for our personal and professional development and leads us to achieve success in life. Knowledge helps us in several ways but the best part is that it helps us understand ourselves as well as those around us better. It also helps us act wisely in different situation.

Ms Titty Tom  
Department of Computer

The greatest teacher that one can think of is One's life itself. Life teaches us many things that can only be learnt by experience. We gather so many experiences along in our lives, we actually become a sum total of all our experiences and our outlook towards life is based on this experience of ours. The knowledge that one gains from One's life experiences is invaluable to say the least. It is good to learn from one's own mistakes but it is better if we could understand the same from someone else's mistakes and adapt our lives accordingly. All the progress in science, technology, art and even religion is because of sharing of knowledge from one generation to the next. We should all strive to learn lessons from our own lives as well as from other's experiences. There is nothing more satisfying than giving a genuine advice to someone who really needs it. It is not always easy to share knowledge, We all should strive to be givers of knowledge which is the greatest act of kindness that we can do to our future generations. Teaching is a profession where one has to be a Giver of Knowledge. Knowledge is the best resource to live the present and also the best gift for the future generations to come.

Ms Taniya  
Department of Computer

“A good teacher is like a candle- it consumes itself to light the way for others”. Imparting education not only enlightens the receiver but broadens the giver. Education is what remains after one has forgotten what he has learnt from school. We should be unintentionally committed to provide our students with high quality education. The role of teacher is not limited to only the classroom but different roles outside the class room. A good teacher helps us to become a good human being in the society and a good citizen of the country too.

Ms Tintu Tony  
Department of Biology

## Be a giver of knowledge

“If you have knowledge, let others light their candles in it.”

- Margaret Fuller

Knowledge is valuable when it's useful to others. The act of giving isn't just a matter of ultimately receiving more, or even an act of altruism and selflessness. Teachers, can find a new level of performance as professionals, contentment in our craft, and changed lives in the communities we serve. For teachers, this would obviously be built around the idea of service-oriented teaching, where we gain strength and perspective from serving others. It would lead to 'other growth,' including, on a broader level, the formation of a personal and professional ecology than can sustain us through the challenges of teaching.

Sharing the knowledge that will enable us: to comprehend the significance behind each experience, grasp the significance of expanding our self-learning, and figure out how to love learning. There are lot of benefits of giving knowledge to others; we will give all of ourselves, give the benefit of the doubt, learn new things, promote self-discovery, connect with communities, and establish new measures of success. And when things go wrong we will have a short memory. We will give myself a break and push on, excited about what tomorrow might bring.

Ms Tessy Mol

Department of Mathematics

Charles Spurgeon said, "Wisdom is the right use of knowledge. To know is not to be wise. But to know how to use knowledge is to have wisdom.

Knowledge is an essential component of human life. There is no single source of knowledge, hence it can be obtained from anywhere and everywhere. Not only should knowledge be learned, but it should also be shared and conveyed to large groups of people for the common good and benefit of everyone. People who impart knowledge are worthy of our respect, and they should be considered as such at all times. Knowledge also helps in attaining success and achieving our objectives. We are led down the path of virtue by knowledge.

Ms Treesa Thomas

Department of Mathematics

## BE A GIVER OF KNOWLEDGE

Gaining knowledge is the first step to wisdom, sharing it is the first step to humanity.

Knowledge enlightens the mind and the soul of the person. It is important in every phase and every walk of our life. Knowledge leads us to the path of fame and dignity. We can acquire knowledge not only from text books but also from the nature and every person around us. Knowledge should never be confined as it increases by sharing but not saving. Knowledge is power as long as it is shared. So let us spread the cause knowledge and positivity are the only two things that increase on spreading. Let us spread the knowledge we possess like a candle who lights up other candles cause a candle loses nothing lighting another one instead together they light up the world more brightly during darkness.

The right information brings knowledge and knowledge is power. Knowledge shared is power multiplied and sharing knowledge is empowerment.

Ms Sunita

Department of Physical Education

# STUDENTS CORNER

## Be a giver of knowledge

Knowledge is power. Knowledge shared is power multiplied. Knowledge sharing is a cornerstone of a great human civilization. Sharing insight in front of a live audience provides opportunities for live interaction and enhances your confidence. By sharing your knowledge, you either become expertised in the relevant matter, or even get to learn new knowledge by teaching others. Sharing knowledge is not about giving people something or getting something from them. It occurs when people are genuinely interested in helping one another in developing new capacities and creating a learning process. Knowledge is like garden if it is not cultivated it cannot be harvested.

Hishitha  
Class - 2A

## BE A GIVER OF KNOWLEDGE

Knowledge is for lifetime, it's a treasure which cannot be taken away from you. Thus, instead of keeping it with yourself it would be productive to share and imparted to masses of people with a view of the common good and common benefit of all. When you share your knowledge with others, it helps deepen your own knowledge and engrains what you know and it's a joy when you share it with poor, uneducated and needy people.

A person who gives knowledge is a brilliant light illuminating the prism of life revealing to the people a rainbow of possibilities. So always be a person who gives knowledge for making world a better place to live.

Aadhya Trivedi  
Class - 2A

## BE A GIVER OF KNOWLEDGE

As you get older, you gain knowledge. When you get older, you also might have the feeling that those younger than you don't have a big interest in learning what you've learned. I don't think there is anything new in either of the statements above. In fact, I'll bet that when you were in your twenties and thirties you didn't think your elders had much to add to your life. What could they have known? Now you know how wrong that thought was. Twenty-twenty hindsight is something we all experience as we age. I don't know about you, but I often say..." If I only knew" way too many times a day. If you've taken fifty or more turns around the sun, I can promise you have wisdom that would be useful for those younger folks in our lives. We tell ourselves that it's a bad idea to bring up our lessons. We don't want to see the eye rolls and see the thought bubbles in younger people's heads. Who's responsibility is it for us to teach? It's easy to say the responsibility is on the learner. Aren't they the ones who getting the value from what you're about to say? My answer to this is no, it's not their responsibility. Learn to speak up. Know there are lessons that are so important you can't just hope someone will ask. Raise your hand or even shout if you have to. You know things and those things are important in the lives of those you love.

Lekhana  
Class - 2A

## Be a giver of Knowledge

Knowledge is the most powerful tool of human beings. It doesn't mean we learn things only from our classrooms. We start learning from the day we start growing in our mother's womb. Also we will be learning one or many things from our day to day life. We get knowledge from our teachers, parents, friends, nature etc. We should open our eyes, ears and heart to learn from our surroundings. Also people around us will learn from us too. I believe each and every particle in the world is a giver of knowledge to us and we are always a student.

Nayanika P S  
Class 2 A

## Be a knowledge giver

Be the knowledge giver Knowledge means facts and information, and a knowledge giver is one who shares its knowledge with others. The teachers are one of the most known knowledge giver's from ancient times. Indian tradition has a famous saying in Sanskrit 'Acharya devo bhava', where it equates the teacher to god, as teachers play an important role in shaping the future of their students. The teacher not only is a knowledge giver but also helps students choose the right path to make a bright future. With the rise of technology new knowledge giver's have also come up like Google who provide us with a lot of facts and information on the Internet. The biggest difference between an Internet providing a lot of information and a human teacher who also helps it understand properly according to student ability.

Tia Dangi  
Class - 2B

## Be a knowledge giver

Knowledge means to know or be aware of things, information or facts. We cannot become knowledgeable overnight. It comes with deeper understanding and experience. We have to seek knowledge by involving ourselves into reading books, journals, magazines, sharing our thoughts with others, Research. Lack of knowledge creates fear. Seeking Knowledge creates courage. Knowledge has a beginning but no end. Knowledge helps us to make better decisions as we can understand what is right and wrong. Knowledge makes us powerful, thus making us less ignorant. It instills a sense of self-confidence in us. We can fully utilize this power when we share our knowledge with someone who lacks it. Thus empowering ourselves and others. Money does not give us independence but knowledge does because we have the ability to solve any issues at hand. Also an Educated Person need not be knowledgeable, but a Knowledgeable person is Educated always. The power of knowledge combined with from all the individuals can make a better society and in turn making a better nation in terms of morals and economics. Thus, knowledge opens door to opportunity, Achievement, Success and Wealth.

Sai Yash Murthy  
Class - 2B

## Be a giver of Knowledge

“Sharing will enrich everyone with more knowledge “...

~Anna Monnar

Knowledge sharing among peers plays an important role in students' learning process. The primary motives of sharing knowledge were to improve understanding of the concepts discussed in the class and to build relationships with classmates. For group assignments, more knowledge sharing occurred within the group members than with other groups. The purpose of good knowledge is to bring you happiness, directly or indirectly. It takes you towards happiness and away from darkness towards light. When you have the right knowledge, there are higher chances that you make the right choices and that does change your life for the better.

It can foster vision in others and strengthen professional ties. When you share with others, it helps deepen your own knowledge and engrains what you know. ... Sharing your knowledge with colleagues is a great service. It gives you an opportunity to think about others and not just yourself.

Knowledge is important for personal growth and development. ... \* Knowledge solves problems– problems in life which can be solved with the power of knowledge. Knowledge sharpens our skills like reasoning and problem-solving. A strong base of knowledge helps brains function more smoothly and effectively.

Vivamary Binson

Class - 2B

## Be a giver of Knowledge

Knowledge is to know a subject very well. When shared, it increases many times.

In older days, we gained knowledge from teachers, books, and newspapers. But now, we have different ways to get knowledge, most commonly by Internet. In this pandemic, we didn't go to school, as we learned all subjects online.

Today, age is not a barrier, using computers and mobiles gives us many ways to gain and give knowledge. Even a child can share knowledge, YouTube is the best example. I share the laptop tricks with my parents and sister, like keyboard shortcuts. I also teach my sister get better at Chess. My sister helps her friends in group-study before exams.

Sharing knowledge brings out the best in us, that is why teaching is considered Godly.

When we help someone on a subject, we must think to make it simpler. This increases our understanding of it. And finally, when we succeed in making the other person understand, we feel very happy and become confident.

Let's make a better world, let's be a giver of knowledge.

Adwaith Krishna

Class - 2C

## Be a giver of Knowledge

Teacher is the giver of all knowledge in the universe after God and Parents.

As we grow older, we realise that the knowledge we gain from our Parents, Grand Parents and finally we get it from our teachers remains with us forever. The power that knowledge is incomparable with other things that are in the world.

We should use the knowledge to help the people around us. When we don't put our knowledge to good use, we will be wasting the knowledge that we possess. We can increase our knowledge by reading and learning new things. Our knowledge keeps increasing throughout our life.

The more we share our knowledge, the more it increases. When we share the knowledge, we are helping people increase their knowledge too. So always be the giver of knowledge like how our parents, teachers do.

Aaira Ruman Saif

Class - 2C

## BE A GIVER OF KNOWLEDGE

The most powerful thing in the world is knowledge. It helps us distinguish between humans and animals.

Knowledge is the ability to use your knowledge to help others. Knowledge is something that helps you drive a car, ride a bike, solve a puzzle, etc. Knowledge is something that prevents us from making the same mistake twice.

Such knowledge must be shared to all. When you share with others, it helps deepen your own knowledge and engrains what you know. Sharing your knowledge with friends is a good habit. It gives you an opportunity to think about others and not just yourself.

Creating awareness of covid among students, sharing tips for solving problems with classmates, helping in doing assignments, motivating friends about their work, are some of the small things which I share to my friends. Thus, sharing what I know gives me more confident and also happiness.

A small change with continuous process gives us the best result. So always share the knowledge with your friends.

Andrella Sharon.S  
Class - 2C

## Be a giver of Knowledge

“If you have knowledge, let others light their candles at it.”

-----Margret Fuller

Your knowledge increases three times when you give knowledge to others. If we share our knowledge then it doesn't make us less valuable in fact it gives us power to share more. If you don't use your knowledge then it is useless because you are not helping others with your knowledge. Giving knowledge doesn't mean that you need any special class to deliver knowledge or you need special event to deliver. You can help others by just giving advice at any place at anywhere. You impart to somebody and tomorrow somebody offers with you and therefore the beneficiary shares with another person making a cycle of knowledge sharing, it's an ideal opportunity for one to offer back to individuals, while making relation strong. Giving knowledge helps individuals to succeed in their life and career. It likewise gets clarity to one's thoughts and considerations. And the best part about sharing is that it makes us and the people around us feel better and we learn more, so it will always be a win-win situation.

“Knowledge is life with wings.” It is our responsibility to help others to spread their beautiful wings and fly!

Hritik J  
Class - 2D

## Be a giver of Knowledge

It is rightly said that “The Supreme Treasure is Knowledge”

Be a giver of Knowledge to the needy and it is the key to Happiness and Fulfilment. Knowledge plays an important role to shape our personality and perfect our behaviour.

Knowledge has no definite source and it can be gained from anywhere and everywhere. Theoretical Knowledge can be gained through Reading Books and Practical Knowledge is cultivated from real life experiences and problems. The real test of Knowledge is not by acquiring it, but applying it in the needed situations and circumstances. Knowledge helps to gain Success and reach our Goal.

Knowledge should be shared and imparted to masses of people with a view of the common Good and common benefit of all.

Lakshita  
Class - 2D

## Be A Giver of Knowledge

Knowledge is most valuable thing to be learned in life. For a successful life knowledge is most important. Knowledge is important to be shared, knowledge is increased by sharing not by saving, So, be a giver of knowledge. Giving always proceeds receiving, when you share equally you learn, you gain more knowledge. Giving always stands on upper hand which gives happiness and confidence in a person. Knowledge is knowing something familiarity, Strong base of knowledge helps brain function smoothly and effectively. Most of enlightenment comes from knowledge. Enlighten the person by giving, by sharing right knowledge. Giving knowledge is giving life, giving light, symbol of joy, happy. Your knowledge is weapon keep it loaded.

Ritsika Naidu  
Class - 2D

## Be a giver of knowledge

Knowledge means we should be aware or understand someone or something according to facts, information, description of skills by discovering and learning. Being a giver of knowledge means we should always be ready to share our knowledge with each other. We can acquire knowledge not only from our textbooks but also from nature and every person around us. We should help people get over any stressful situations. This way the knowledge that we share becomes permanent solution of the problem. For example I help my grandpa when he needs help with his smartphone. I teach him how to use it. Like I taught him how to make calls, video calls, pay bills, send money with his smartphone. This is just a small example of me sharing knowledge about smartphone to my grandpa.

So, we can say if you have knowledge, let others light their candles in it. There is no other power that can defeat the power of knowledge in a human's hand.

Tusya  
Class - 2D

## “Knowledge is power.

Knowledge can change a person (for better or worse) and can cause you to make unexpected decisions. That knowledge gives you the power to control people or to help them. Without knowledge we are nothing and life has almost no meaning.

An Everyday walk

### Be a giver of Knowledge The teacher is a best source of knowledge

A classroom is a microcosm of life where lessons are to be learned within the covers of books and without. “Nearly half of your personality is what your teachers have made of you,” says A Noel Joseph Irudayaraj, who has spent over three decades in higher education.

A person who chooses to teach or coach others has been doing lots of inner work on themselves over time, and continues to do so. They do it whether or not someone says thank you, follows through on all the steps at once, or even seems to be learning at all.

“If there’s someone around them who is ignorant or doesn’t know something, it’s up to them to try to teach or help them learn.” And basically also implied that experts or those who know certain things have a duty and moral obligation to share it with those who don’t.

When people don’t know what they don’t know, they don’t know to ask anyone else about it. It’s up to people who know to educate them and help them to know. If no one educates them, then it’s partly the fault of whoever knows enough to tell people who don’t know when the ones who don’t know are sitting in failure.”

B. Koushik  
Class - 2E

## Be A Giver of Knowledge

s the old Indian proverb goes, “If you give a man a fish, he will be hungry tomorrow. If you teach a man to fish, he will be richer forever”.

It would be an understatement, if we say that it is the Knowledge, which has given us (the human race) dominion over the other innumerable species on this mother earth.

Then the question arises, “what is Knowledge and how it can be acquired?”. In simple words, it is a skill (or combination of skills), which a person accumulates in his entire life through different life experiences. It is the Knowledge which guides a person on what is wrong or what is right and how to react to a certain situation of life.

It is acquired through the interactions of an individual with its family in the early years of its life, then from formal education in schools & colleges, and afterwards through its worldly experiences in life. Hence, it can be concluded that the early years which a kid spent with his family and school could greatly shape its entire life.

Here is a true story how Knowledge can shape someone’s future:

“There are two friends (B Prasad and A Shah) living in a small town. B Prasad is illiterate and runs a small shop, whereas A Shah is educated and works for Government. Both friends are blessed with two kids each. Since B Prasad is illiterate, he wants best of education for his kids and they go to good private school. Additionally, he focuses on the full round development of his kids via training in extracurricular activities and sports. Consequently, he has meagre savings for his retirement.

On the contrary, A Shah wants to save majority of his earnings to leave handsome wealth for his family, when he dies. Hence, he sends his kids to a local Government school\*\* with no emphasis on other skills.

Many years later, A Shah is retired, have good savings but his both kids are engaged in petty jobs at un-organized sector because neither of them has good quality education nor a graduation degree. In contrast, B Prasad’s kids are graduate and are well settled. Also, each kid is earning more than A Shah’s both kids’ combined income.”

\*\* By no means, author intends to degrade the Government schools and its education. Instead, he wanted to bring readers’ notice that in past, there have been many Indian states, where the Government schools were malfunctioning and the whole system was rotten.

The reason for sharing the above story is that as a human we should be a giver of Knowledge not just money. Knowledge leads to wisdom and prosperity in one’s life.

Aatmiya Dinesh

Class - 2E

Knowledge has no definite source, and it can be gained from anywhere and everywhere. Gaining and Sharing of knowledge plays an important role in Human Life. The knowledge is something that increases the more you share it.

The happiest people are the givers, sharing knowledge and insights which helps seekers integrate information. Not only the knowledge should be gained but also they must be shared and imparted to masses of people with a view of the common good and common benefit of all.

The important asset every human holds is Knowledge. It brings in positive revolution with a vision to ease life. The act of sharing keeps the learning alive and relevant and encourages the future growth.

Moreover, Generosity includes value when knowledge is shared. Thus, there should be a continuity in the process of gaining knowledge.

After all, your Greatness is not what you have, it’s what you give.

Heba Mariam

Class - 2F

### Be a giver of knowledge

Knowledge is not acquired only through education. It could be by awareness or familiarity gained by the experience of a fact or situation. According to Rig Veda knowledge is also the giver of wealth or rather wealth is the by-product of knowledge. Only By giving knowledge will we be able to receive more than we already have. Knowledge creates courage, confidence and will be able to achieve what we desire. Being a giver of knowledge, what we know about it brings us happiness. We can gain knowledge even from our younger ones as there is no age limit to share or receive the knowledge. Keeping knowledge within oneself and getting success is valueless as it's not incremental. Be a giver of knowledge as it's equal to helping others who are in need.

Nikhitha S.M.  
Class - 2F

### Be a giver of knowledge

“Learning gives creativity, Creativity leads to thinking, Thinking provides knowledge, and Knowledge makes you great”. These lines had been said by our former president and great scientist Dr. A.P.J. Abdul Kalam focusing on the importance of knowledge.

Once a person gets power of knowledge, he/she does not need to fear from other power. knowledge plays great role in all aspects of the life by letting us know the easy and effective ways to solve the critical situations. Knowledge is a very powerful factor which helps us to easily get name, fame, success, power and position in the life. Knowledge is the ability to use your knowledge to help others.

Every educated person is not knowledgeable, but every knowledgeable person is educated. This statement may sound weird but it's true. In today's world, almost everyone is educated still they do not have knowledge of the subject that they have studied. Moreover, knowledge assists us to differentiate between what is right and what is wrong. It helps us to overcome our faults, weaknesses, and dangerous situations in life. Also, a person with knowledge is more mentally and morally sound than people with money and less knowledge. The knowledgeable person is the richest person on earth because no one can steal his/her knowledge. But anyone can easily steal your money and power from you any time.

In conclusion, we can say that true knowledge helps a person to bloom. Also, it keeps people away from conflicts and corruptions. Besides, knowledge brings happiness and prosperity to the nation. Above all, knowledge opens the door of success for everyone.

Yuvanila  
Class - 2F

### Be a Giver of Knowledge

Knowledge is powerful, but sharing knowledge is much more powerful. We must give our knowledge to as many people as possible because sharing of knowledge enhances and improves our knowledge. If we exchange one rupee, we both will have one rupee, if we exchange one good thought, we both will have two good thoughts. That's how knowledge increases by sharing. When we give our knowledge to others, others can apply and build on what we share to refine and expand upon it, this strengthens our knowledge as others can improve what we know. If our wise ancestors would not share their knowledge, human civilization would not have grown as it is today. That is the importance of giving knowledge. People die, but knowledge survives forever. Scientists like Newton and Einstein have become immortal due to their sharing of knowledge with the world.

Tadi Sai Aishwarya Reddy  
Class - 2G

## GIVER OF KNOWLEDGE

Knowledge is the greatest weapon in this world. What we are today is all because of the power of knowledge. We should not set limits for knowledge. Life is too short and in this short life we get opportunities to learn a lot. Knowledge gets multiplied when we teach it and share with others. If we keep knowledge to ourselves, it will be of no good, instead we have to use the power of knowledge for our betterment and betterment of our nation. Attaining success through harnessing your own knowledge isn't just about what you accomplish in your life. It's about what you inspire others to do as well. Always be a giver of knowledge because knowledge directs one's actions and helps us to differentiate good and bad. It helps one to overcome their weakness and faults and face dangers and difficulties with courage and confidence.

Chrisjoe R. Rayappan  
Class - 2G

## Be a giver of knowledge

Our school is the main source of knowledge to us, students. Our beloved teachers help us every day to gain knowledge in a systematic way. I am very thankful to all of them. I am sure that I can make success in life with the knowledge I get from Christ school. Along with the studies, we are also taught to foster good values in our life. Sharing is one of the values that we all are practicing here in our school. When we share we grow. I encourage all my friends to share the knowledge that we get from our school. If any of our friends do not understand the chapters, we can always help them. We can find out our own ways to share our knowledge with others. I am very happy to do so.

Nea Renju  
Class- 2G

## Be a Giver of Knowledge

Knowledge is understanding and awareness of something and it is an important part of human life. It helps in the sustenance and growth of civilization. Knowledge is a very wide concept and has no end. Knowledge has no definite source, and it can be gained from anywhere and everywhere. Acquiring knowledge involves cognitive processes, communication, perception, and logic. Not only the knowledge should be gained but also they must be shared and imparted to masses of people with a view of the common good and common benefit of all. The people who impart knowledge are worth our respect and they should always be treated all. Knowledge also helps to gain success and reach our goal. Knowledge leads us on the path of righteousness.

Lloyd Dinish  
Class - 2G

## Be a Knowledge giver.

The best thing we can give to any one in our life is Knowledge, because knowledge is life. Swamy Vivekananda says, "The gift of knowledge is a far higher gift than that of food and clothes. It is even higher than giving life to a man because the real life of a man consists of knowledge. Ignorance is death, knowledge is life".

It is also said that when you give money to a poor man, you make him a beggar, when you give him employment you make him your slave but when you educate him, you give him life. As Gandhiji said, if we give rice to a man, he will eat today, but if you teach him how to grow rice, he will eat every day.

Learning is never ending so is knowledge sharing. The only thing in this world which grows as you give away is your knowledge.

Irene Maria Thomas  
Class - 2E

## BE A GIVER OF KNOWLEDGE

We learn something in our whole life. For me learning is gaining knowledge.  
Knowledge helps us to become confident, brave and powerful.  
It is like a sea which has no end.  
It is like a sky which takes you higher.  
It is like a sun which gives light to the entire world  
Be a giver of knowledge, you feel happy when you give something.  
Giving something to others is always a good gesture.  
We can spread knowledge to others without any cost.  
The more you share the more you gain and more knowledgeable you become.

Ashar Alam  
Class - 2H

## Be a giver of knowledge.

If you have knowledge, let others light their candles in it.  
Knowledge is an important part of human life. Knowledge is like glue which sticks in, formation as well as learning together. Knowledge is understanding everything in detail. When we share our knowledge with others it makes you more significant that you are. Sharing knowledge sharpens our skills and helps brains, function more smoothly and effectively. We become smarter with the power of giving knowledge is important and useful in day to day events. So, when we share knowledge it gives us the ability to survive and grow in the world. Being a giver of knowledge makes us better at making decisions, as well as to decide the logical and ethical ground on which we want to be making our decisions.

Jagan Y G  
Class - 2H

## Be a giver of knowledge.

“Giving is a master key to success, in all walks of life”

- Anonymous

Very well said quote which has a deep meaning in it. Yes, we the human beings are here with a purpose and that true purpose can be fulfilled only when we share our knowledge and wisdom with others. It is the primary step towards humanity. Knowledge is something which you can give without losing anything. Here it reminds of a significant thought i.e., “**The happiest people are the givers, not the takers.**” One needs to experience it to stay consistent on that path. Knowledge is considered as power only when its shared as it is something that we have been given by others with a positive intent that someday in some way, that knowledge will be passed on to the world. Now we need to decide whether to be a giver of knowledge or taker, because takers may feel better, but the givers sleep better. Very true. With great respect and love, I recollect all those beautiful memories with my parents, dear teachers and all those who have shared their precious knowledge with me and taught me the values of life, thereby motivating me to be the **Giver of knowledge.**

So, let us all stay motivated by being the **Giver of knowledge** to make this world a happy and better place to stay

Aradhya

# PARENTS CORNER

## Be a giver of knowledge

Sharing knowledge or guidance that is born of experience is linked to an explorer who found a way then created a road map for others. If everyone shared the lessons and knowledge of their lives, we could learn so much from each other, and there would be more empathy and less strife. We can share the experience from pitfalls to victories. Sharing from the heart of true experience provides plenty of gems to grow. This is not just an “older to younger” set up. Generational sharing and richness is a must, especially now. The axiom is so true: knowledge only has value if it is shared to the benefit of others!

Ms Vaijanthi  
Parent of Hishitha,2A

## Be a giver of knowledge

“Knowledge is like a garden; if it is not cultivated, it cannot be harvested”.

Knowledge is not just something a fact, information, or any description of skills. It gives you that ability to identify what is right and what it is wrong. It educates you in many ways. The best way anyone can give back something to the society is through knowledge. Knowledge obtained by a university education pertains only to subject matters, but actual knowledge is beyond that which brings out the better version yourself every day.

The knowledge has two facets, i.e., Assimilation and Dissimilation of knowledge. Both have their own importance in the world. We got formal educational knowledge because of our ancestors done the same thing. Now it's our turn to create something useful to the universe and pass it on to our future generation with the same hope.

Knowledge has a beginning but no end.

Ms Priyanka Trivedi  
Parent of Aadhya,2A

## Be a giver of knowledge

In today's world without education it is not possible to succeed in the life. Knowledge is important for both our personal growth and development. Gaining knowledge also makes us wise enough to make our decisions independently. Parents are the first teacher in our life and they teach us what life is all about. A classroom is a second important part of our life where we learn lessons of our life and teachers play very important role as a giver of knowledge. Teachers are always considered as the best source of the knowledge, learning and information for students. I owe a lot to my teachers and cannot forget their contribution in my life. Only by sharing the knowledge we receive more. Always share the knowledge without any expectation. True joy is in sharing our knowledge with others and making difference in their life.

Dr. Rajeshwari U R  
Parent of Aaditya Praveen, 2B

## Be a giver of knowledge

God is the giver of knowledge and understanding. Knowledge is so powerful and has ability to win over all physical power in the world. Knowledge plays a great role in all aspects of life. Teacher play a great role in giving knowledge to young minds which remain permanently carved inside their innocent brain.

I would like to share a small story of a boy who was studying in class 5. One day his teacher gave a lesson on how birds fly. After 25-minutes of long lesson none of the student understood the concept. So the teacher took entire class to the beach to give practical example. The lesson left an incredible impression on that boy and he decided in future he will take up studies with reference to flight. In his higher education he took physics and studied Aeronautical engineering. This boy was none other than our A.P.J Abdul Kalam.

That one incident of a teacher has turned a boy into a great Scientist, this is how the giver of knowledge our teachers play the most important role in student's life.

Ms Suhana Afreen  
Parent of Aira Ruman Saif, 2C

## BE A GIVER OF KNOWLEDGE

Sharing knowledge is the most fundamental act of friendship. Because it is a way you can give something without losing something.

Richard Stallman

Knowledge is understanding and awareness of something. It refers to the information, facts, skills, and wisdom acquired through learning and experiences in life. Knowledge is a very wide concept and has no end. Acquiring knowledge involves cognitive processes, communication, perception, and logic. Knowledge is important for personal growth and development. Knowledge sharpens our skills like reasoning and problem-solving. A strong base of knowledge helps brains function more smoothly and effectively.

Here comes an amazing incident, An Indian village teacher Ranjitsinh Disale, who transformed the life chances of young girls has been awarded the winner of the Global Teacher Prize 2020, in partnership with UNESCO.

When Ranjitsinh arrived at the Zilla Parishad Primary School in Maharashtra 2009, the school attendance could sometimes be as low as 2%, and those did make it to school, the curriculum was not in their primary language leaving many students unable to learn at all. Ranjitsinh was determined to turn this around, moving to the village and trying to learn the local language.

Ranjitsinh then not only translated the class textbooks into his pupil's mother tongue but also embedded them with unique QR codes to give students access to audio poems, video lectures, stories and assignments.

The impact of Ranjitsinh's interventions has been extraordinary that is 100 percent attendance by girls at the school. The school was also recently awarded the best school in the district with 85% of his students achieving A grades in annual exams. One girl from the village has now graduated from university, something seen as an impossible dream before Ranjitsinh arrived.

So, a small effect of sharing his knowledge

turned out the entire girls to be educated. Thus, sharing our knowledge always gives a way to light to someone darkness. Try to be a giver of knowledge to all.

Ms. Arthi.  
Parent of Andrella Sharon.S, 2C

## Be A Giver Of Knowledge

“What we do for ourselves dies with us. What we do for others and the world remains and is immortal.” — Albert Pine.

The important asset every human holds is Knowledge. Knowledge should not become power or authority amongst people or organisation rather should become social and charity initiative. Everyone is a seeker in way for knowledge and information in this era; we try to discover knowledge through multiple sources, so that it values us. The question is not whether everyone in our society have the right skills; it's whether they have the potential to learn new ones". Generosity includes value when knowledge is shared. Knowledge sharing can help in enhancing one 's sentiment, abilities and skills. It helps individuals to succeed in their life and career. It likewise gets clarity to one 's thoughts and considerations. Giving knowledge additionally helps in expanding the vision and expanding intellect, hence making one become independent. The more one gives the more they develop and the better position they gain in.

And as the Dalai Lama once said, “Share your knowledge. It's a way to achieve immortality.”

Ms Sowmya  
Parent of Hritik, 2D

knowledge is just like a tree without roots. Knowledge is the strongest tool providing power to the people and knowledge cannot be defeated by any other person. You can get whatever you want in life when you have a right knowledge. Continuous learning is one of the key to achieve success in life. Knowledge has no value unless you share it. So be a giver of knowledge, giving knowledge is giving life, giving success to happy and dignified life.

The right information brings knowledge and knowledge is power. Sharing it, is enlightening, empowering. Its absolutely pride in giving.

Ms Bharathi M  
Parent of Ritsika Naidu, 2D

Knowledge is like a river,  
The deeper it flows the less noise it makes.

Knowledge is just the understanding gained through learning and by experience. Knowledge is considered to be a uncountable noun so sharing it will not make us less rather it might sometimes even help us in understanding it much better after knowing their experiences so we should never think twice when there is chance to share our knowledge with some one.

We should always treasure the moment when we can share our knowledge.

Sharing knowledge is just like sharing our experiences which can indeed make others life easier and better.

So be a giver of knowledge because knowledge helps us make a right decision and may also help us realize the importance of time.

A good experience can built a greater knowledge and can serve as a guiding beam of light to others in dark.

Ms Harini V  
Parent of Hitesh L, 2E

## BE A GIVER OF KNOWLEDGE

Knowledge is understanding and awareness of something, it refers to the information, facts, skills and wisdom acquired through learning and experiences in life. Knowledge is a very wide concept and has no end. Acquiring knowledge involves cognitive processes, communication, perception, and logic. In today's world without education and the power of knowledge, it is not possible to succeed in life or even keep up with the fast-paced life. It is not just enough to have knowledge on a particular subject to succeed but it is also important to have knowledge about how to use it effectively to succeed. One should have knowledge about various aspects of a subject.

Mr Nagaraja D M  
Parent of Akshara Nagaraj D, 2E

## BE A GIVER OF KNOWLEDGE

Be a giver of knowledge

Knowledge is a virtue which increases by sharing and not by saving. It is a chain which helps in building a nation strong. It is rightly said that home is our first school and mother is the first teacher. She initiates to educate her child. Then the child goes to school where the teacher imparts the knowledge which the teacher has gained from his or her teacher. The knowledge so acquired will give way to many professions which in turn helps the professionals to share their knowledge of their expertise. It is a chain which helps in building a nation strong. All these happens only when knowledge is shared. The more you share the more will you be blessed with wisdom by Lord Almighty. So, let each one of us volunteer to share our knowledge.

**Be a giver of Knowledge.**

Ms Malathi .S  
Parent of Sai Medhaa .S, 2F

## Be a Giver of Knowledge

As we Get older, we gain knowledge from various ways. We Gain knowledge by learning, listening, watching, from own experience and from listening other experience. Whatever the knowledge we gained if we don't share or give to others the knowledge will die along with us. To increase our knowledge always we should Be a knowledge Giver. The Real Happiness in out life lies on Being Knowledge Giver. The only thing in the world which multiply by sharing or giving to others is the knowledge. So if we think of everyone in the world starts sharing or giving the knowledge to others what they know then there will be huge change across world with respect to everything existing in the world. We should always Be a Giver of the knowledge. Happiness always lies in the domain on Givers than takers. Takers are the people who when working/learning with others try to get as much out of interaction. Givers are the one who give back what they know in return to the world. As per views of the knowledge givers, sharing or giving to the world what they know is the quickest way to success. If we have a knowledge let others light their candles in it By Margaret Fuller. The Giver of Knowledge and wisdom is the silver lining in every dark storm.

Mr Prakash.K.L  
Parent of Vibhav P Shetty, 2F

## Be a giver of Knowledge

Knowledge affords us a beginning in life. A man/woman without knowledge is called a man/woman without vision. Our growth in life depends on the renewal of knowledge gained through our experience. Knowledge is a biggest asset for anybody in this world. One who has knowledge can succeed in anything. Knowledge is required to discern/judge good things and bad things. Both in work life and personal life, knowledge helps to overcome obstacles. A person who has skill and knowledge wins the race any day. So it is good to educate ourselves and motivate others to improve their knowledge so that the day to success is not far away.

How you can be a giver of knowledge in your business:

Accelerate the accumulation and dissemination of knowledge across your organization Provide easy and rapid knowledge access to your team

Eliminate time and space constraints in communications

Stimulate associates to experience the value of sharing knowledge in providing custom-tailored service to customers

Respect the dignity of each individual by cultivating an environment that enhances his or her professional development and recognizes each person as a valued member of a service-oriented team.

Ms Priyadharshini P  
Parent of Ronald Jeffrey J

## GIVER OF KNOWLEDGE

There is gold and a store of corals, but the lips of knowledge are a jewel of great price. Prov. 20:15 Sharing knowledge and inspiration is really important in our lives. Being a giver of knowledge not only helps in fostering vision in others, but also helps deepen our own knowledge and engrains what we know. Imparting knowledge and wisdom from one generation to the other is one important thing that has made humans make huge strides in living in peace and brotherhood. Putting yourself out there is always something that's worthwhile. Sharing your valuable thoughts, ideas and beliefs with others not only gives immense satisfaction to oneself but also enriches the recipient of that knowledge by helping him utilize the information at the required time, place and situation. So be a giver of knowledge it will not only help others learn and experience novel ideas but also help us become enlightened in all that we do.

Ms Nimisha Michael  
Parent of Chrisjo, 2G

## Be a giver of Knowledge

Knowledge will bring you the opportunity to make a difference.

~ By Claire Fagin

As a parent what does knowledge mean to me? In the traditional sense Knowledge is the understanding of concepts, topics and things across a broad spectrum.

But to me it is an invaluable gift that we pass down to the future generation. Knowledge can be acquired from various sources but the most important ones are Parents and Teachers. For they have the access to today's young minds right from an early age.

Like the saying goes "Charity begins at home" so does imparting knowledge. As parents, our duty towards our kids is to guide them in the right direction to achieve this goal. Education is a powerful tool to gain knowledge and teachers play an important role in shaping an entire generation. Knowledge is not only about excelling academically. It is about an individual's holistic development. Teachers are the guiding light who illuminate the path towards this development. They are the torch bearers for a bright tomorrow.

Ms Priyanka Yadav  
Parent of Pranav Yadav, 2H

## Be a giver of Knowledge

As you all know, there are many definitions of knowledge, but the one I liked the most is as follows.

Knowledge is the familiarity, awareness, or understanding of a person or something, such as facts, information, descriptions, or skills, which is acquired by experience or education by perceiving, discovering, or learning. It is the knowledge that makes us different from all the other creations in the world. And even among human beings, the benefits of being knowledgeable are innumerable. To mention a few, it empowers you to communicate better, make decisions faster, solve problems quicker, comprehend effectively, innovate and be progressive, etc. So, it is imperative to acquire knowledge as much as we can, to make success in our lives. Dear students, the primary source of this knowledge, at this stage of your student hood, is our prestigious Christ School. Let us put in our genuine efforts, in coordination with our parents and teachers, to gain the most out of it and reap the benefits.

Along with gaining knowledge, it is equally important to share the knowledge. Have you ever thought, how difficult life would have been, if the knowledge were not shared? From the day of our birth, we are into a process of earning knowledge shared by others. Starting from our parents, family members, teachers, coaches, friends, books, media, social media, the internet, all share knowledge with us, either explicitly or implicitly, and we grow in knowledge day by day.

Our great Indian scholars knew the importance of systematic sharing of knowledge and the ancient Nalanda university which was formed back in 5th century is a great example of it. The meaning of Nalanda is "no stopping of the gift of knowledge".

Our honorable prime minister Narendra Modi once said "The wealth that increases by giving, that wealth is knowledge and is supreme of all possessions".

Yes, it is true. Knowledge grows when it is shared as knowledge sharing involves a process of revising the knowledge one already has and engraining it. Knowledge grows as multiple shared ideas may generate newer and better ideas.

Dear Christites, let us acquire knowledge, grow the knowledge by sharing it and become successful in life!

Mr Renju Chacko  
Parent of Nea Renju , 2G

## Be a giver of Knowledge

There is a word called "Amudhasurabhi" . Yes, I can see all teachers as Amudhasurabhi.

I Mean it, the knowledge they give keeps growing. Its a pleasure that we feel while giving. There is no scale to measure that feel when we give our knowledge to others.

Sharing wisdom from generation to generation is one thing that has made human to take huge stride towards living in peace.

My thanks to all the teacher's sacrifice in this pandemic. I wish you all to get that pleasure always.

It's not only the responsibility of the giver to share knowledge it's also the responsibility of the receiver to observe and pass it on to the next generation, that's how the world survive even things got changed over the period of time and also with the technology boom.

Be the giver of knowledge to balance the world.

Ms Manju S  
Parent of Chaadurya, 2H

## ALUMNI CORNER

Don't know from where to start. It becomes very hard to write about 10years experience in just few words. This whole 10 years of journey started when I was 5-year-old,trying to gather myself together, weeping. It's very hard to comprehend how much I miss my school...the corridors, ground ,classrooms, staffrooms, principal's office, silver jubilee, Chavara auditorium, chapel and of course the stage which gave me confidence and made me a better person each time I was there. Ask me about any place and I will have tons of memories to share. From a timid, shy girl my school gave me confidence and taught me to never let myself down. Behind every success there are many failures. The school exposed us to many situations from confidently saying speech on stage to flopping it, the sports day, talents day, DCL, debates, quiz and many more. Beyond everything the celebrations Christmas, children's day, teacher's day principal's day made our school life much better and when it came to academics there was no compromise, we had tests regularly and with each test we learnt our mistakes and finally ended up been successful. School life without teachers seems so incomplete, now I realise as an Ex-student that we did have one of the most amazing faculty ever. They encouraged us, helped us and they did their fullest amongst all of their problems. Thank you, teachers. I really do miss them a lot. Of course the principal Fr. Dominic and Fr. Nilson Davis they did teach us a lot by correcting us each time we made a mistake. Future a small word but a big responsibility. Our school taught us how to handle it in a wise manner...Now as an Ex-student I really miss my school, teachers, campus and what not. 10years down the lane I can see my school being the best one for the splendid infrastructure supporting faculty. when I'm writing this every memory flash by like a moment .CHRIST SCHOOL ICSE so many things to say, so many memories in one word the preeminent one!

Lekha Ravishankar

## My secondary abode

Christ ICSE School can rightfully be called as my second abode as I have spent 12 years of my life in this temple of learning. Christ ICSE School has nurtured me in terms of Academics, Sports as well as in Extra-curricular activities.

My teachers who were my guiding light throughout these years have played a vital role in my life. They have instilled the qualities of responsibility, leadership and that of being a disciplined citizen in the society. The friends that I acquired during this course of time are more like my family. The memories of all the fun time we had in this school is innumerable.

As all good times have to come to an end, it day when my school would get the title of an proudest days in my life

Matthew Paul Collins .M  
Batch:2018-2019

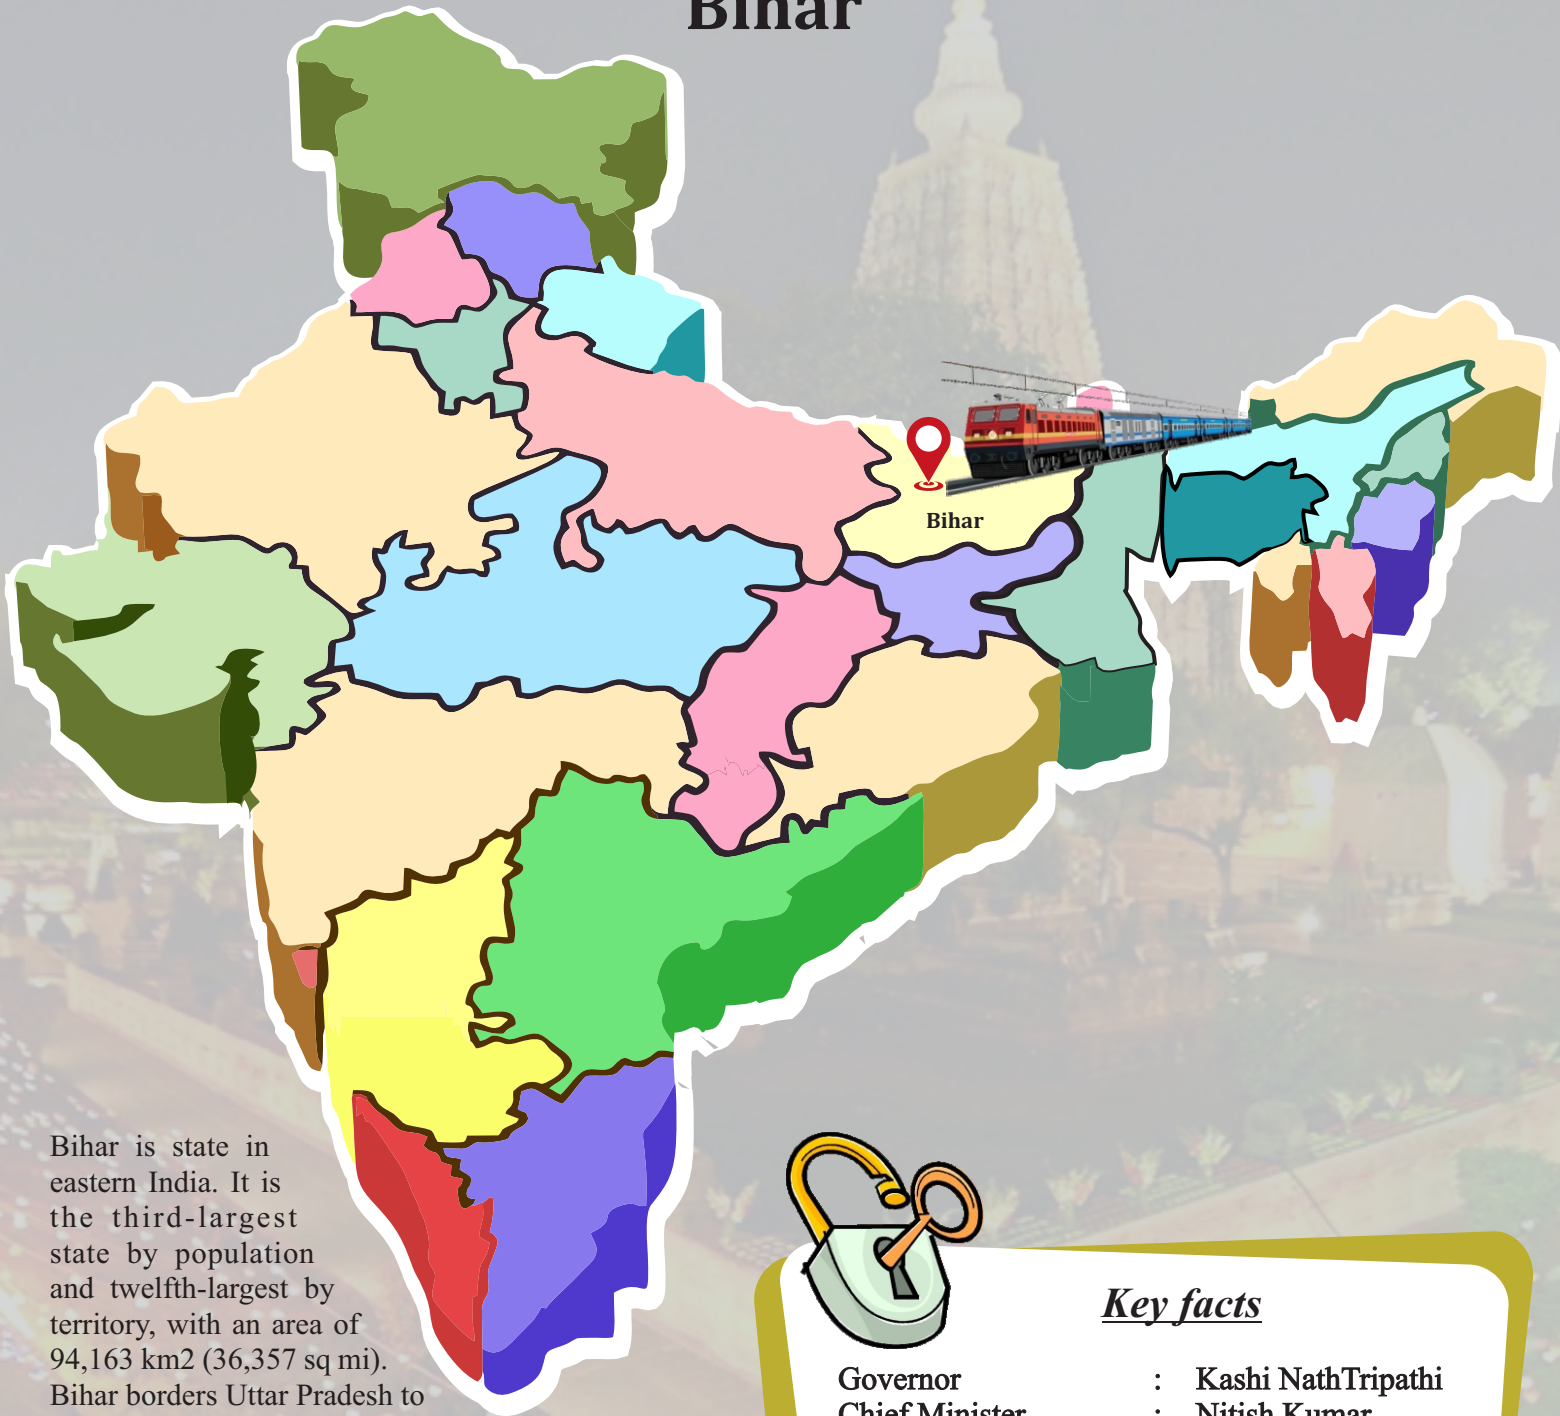

is time that I am called as an Ex-Christite. The 'international school' would be one of the

# STATE UNDER THE SPOTLIGHT

*Welcome aboard a travel experience that gives you a glimpse into this vibrant and beautiful country - INDIA.*

## Bihar

Bihar is state in eastern India. It is the third-largest state by population and twelfth-largest by territory, with an area of 94,163 km<sup>2</sup> (36,357 sq mi).

Bihar borders Uttar Pradesh to its west, Nepal to the north, the northern part of West Bengal to the east, and Jharkhand to the south. The Bihar plain is split by the river Ganges, which flows from west to east. On 15th of November 2000, southern Bihar was ceded to form the new state of Jharkhand. Additionally, almost 58% of Biharis are below the age of 25, giving Bihar the highest proportion of young people of any Indian state. The official languages are Hindi and Urdu, although other languages are common, including Maithili, Magahi, Bhojpuri and other Bihari languages.

### Key facts

Governor	:	Kashi NathTripathi
Chief Minister	:	Nitish Kumar
Chief Justices of Bihar	:	KeshriNathTripathi

# Mahabodhi Temple

The Mahabodhi Temple (literally: "Great Awakening Temple") or the MahabodhiMahavihar, is a Buddhist temple in Bodh Gaya, marking the location where the Buddha is said to have attained enlightenment. The site contains a descendant of the Bodhi Tree under which Buddha gained enlightenment, and has been a major pilgrimage destination for well over two thousand years, and some elements date to the period of Ashoka. What is now visible on the ground essentially dates from the 5th century CE, or possibly earlier, as well as several major restorations since the 19th century

## Bodh Gaya

Bodh Gaya is a famous village in the state of Bihar. Considered one of the most important Buddhist pilgrimage sites, it's dominated by the ancient brick Mahabodhi Temple Complex, built to mark the site where the Buddha attained enlightenment beneath a sacred Bodhi Tree. A direct descendant of the tree sits within the complex today, along with six other sacred sites, including a lotus pond.

## Nalandas

Nalandas a renowned Buddhist monastic university in ancient Magadha (modern-day Bihar). Considered by historians to be the world's very first residential university, and among the greatest centers of learning in the ancient world, it was located near the city of Rajagriha (now Rajgir) and about 90 kilometers southeast of Pataliputra (now Patna), operating from 427 to 1197 CE. Nalanda was established during the Gupta Empire era. Over some 750 years, its faculty included some of the most revered scholars of Mahayana Buddhism. The university was also a major source of the 657 Sanskrit texts carried by pilgrim Xuanzang and the 400 Sanskrit texts carried by Yijing to China in the 7th-century, which influenced East Asian Buddhism. Many of the texts composed at Nalanda played an important role in the development of Mahayana and Vajrayana Buddhism.

## Valmiki National Park

Valmiki National Park is a Tiger Reserve in the West Champaran District of Bihar. It is the only national park in Bihar. Valmiki Tiger Reserve covers 898.45 km<sup>2</sup> (346.89 sq mi), which is 17.4% of the total geographical area of the district. As of 2018, there were 40 tigers in the Reserve. The extensive forest area of Valmikinagar was previously owned by the Bettiah Raj and Ramanagar Raj until the early 1950s. It was declared a Wildlife Sanctuary in 1978. Valmiki National Park was established in the year 1990. Valmiki Wildlife Sanctuary and National Park is the 18th Tiger Reserve of the country.

## PERSONALITY OF THE MONTH

### Dr. B. R. Ambedkar

Bhimrao Ramji Ambedkar, also known as Babasaheb Ambedkar, was an Indian scholar, jurist, economist, politician and social reformer, who inspired the Dalit Buddhist movement and campaigned against social discrimination towards the untouchables, while also supporting the rights of women and labour. He was born on 14 April 1891 and died on 6 December 1956. He was a wise constitutional expert; he had studied the constitutions of about 60 countries. Ambedkar is recognised as the "Father of the Constitution of India".

# Meet My Teacher

Name : Bindu C

A little about myself:

A simple person with  
friendly in nature

\*My birth date: 7th February

\*Zodiac: Aquarius

\*My hobbies: Reading & listening music

\*Favourite colour : Black

\*Favourite movie : Pursuit of Happiness

\*Quality I admire about myself: Hardworking & responsible

\*Favourite food : Sea food & ice cream

\*Ambition as a kid: Lawyer

\*Favourite book : My life in full by Indra Nooyi

\*Dream destination: Australia

\*Favourite subject as a student: Geography

\*Favourite quote/Motto in life: Believe in yourself

My educational  
background:

Bcom, B Ed (English & Social),  
Pursuing MA

# Meet My Teacher

Name: Titty Tom

A little about myself:

God fearing and passionate  
about my profession.

\*My birth date: 8th February

\*Zodiac: Aquarius

\*My hobbies: Cooking, Travelling

\*Favourite colour: Blue

\*Favourite movie: Fanna

\*Quality I admire about myself: Dedication

\*Favourite food: Chicken Biryani

\*Ambition as a kid: Teacher

\*Favourite book: God of small things

\*Dream destination: Switzerland

\*Favourite subject as a student: Computer

\*Favourite quote/Motto in life: This too shall pass.

My educational  
background:

M. Phil in computer Science

## Meet My Teacher

Name: Saravanan A

A little about myself:

I come from  
Agricultural family

\*My birth date: 10th February

\*Zodiac: Pisces

\*My hobbies: Playing

\*Favourite colour: Light Blue

\*Favourite movie: Ethirnechal

\*Quality I admire about myself: Helping Nature

\*Favourite food: Fish Curry

\*Ambition as a kid: Play For India

\*Favourite book: G K

\*Dream destination: Mother's Womb

\*Favourite subject as a student: Maths, History

\*Favourite quote/Motto in life: If you cannot do great things,  
do small things in a great way.

My educational  
background:  
M.A, B.P.E.D

# Meet My Teacher

Name : Mr. David Raja

## A little about myself:

I'm a kind person.  
I will try to make the place happy where  
I am. I would like to be with the  
children always. I will do my work  
creatively and beautifully.

\*My birth date: 14th February

# Riddles

Solve the Riddles within the next 24 hours and  
WIN an E-certificate from the Excelsior team!

## RIDDLES FOR FEBRUARY

1. What can run but never walk?
2. What word is pronounced the same when you take away four of its five letters?
3. I stick so strongly, yet I am not sticky in the slightest. What am I?
4. What has a neck but no head?
5. I have keys but no locks. What am I?
6. What two words, added together, contain the most letters?
7. How many apples can you eat if your stomach is empty?
8. Before Mt. Everest was discovered, what was the highest mountain in the world?
9. Two in a corner, one in a room, zero in a house, but one in a shelter. What am I?
10. What starts with a T, ends with a T, and has T in
11. Which is heavier: a ton of bricks or a ton of feathers?
12. Liam was 11 the day before yesterday, and next year he'll turn 14. How is this possible?
13. Mrs. Brown has 5 daughters. Each of these daughters has a brother. How many children does Mrs. Brown have?
14. What 3 numbers give the same result when multiplied and added together?
15. What kind of room has no doors or windows?

### To enter for a chance to win:

- ✓ Solve the Riddles correctly and send it at the earliest.
- ✓ You can send your answers by tomorrow - 26th March, 2022 by 3:30 p.m.
- ✓ The first 10 correct answers shall be awarded with the E-certificates.
- ✓ Your time starts from today (25.03.22) at 3:30 p.m. and ends by tomorrow (26.03.22) at 3:30 p.m. Late answers will not be entertained.
- ✓ Mail your answers to:

[christnewsletter2015@gmail.com](mailto:christnewsletter2015@gmail.com)

- ✓ Mention your NAME, CLASS, SECTION. Attach a formal photograph.
